Dear Steve:

As indicated above, your policy with Employer's Mutual Insurance Company has renewed for the term indicated above. You received some nice credits this year and it was a result of several factors, one being the installation of the SigAlarm Systems on your pump trucks. These systems, along with your excellent loss history has resulted in an overall average credit of 10% on your package policy for the renewal.

With your continued dedication to safety for your employees and the general public, your premiums should continue to be affected positively in the future.

Thank-you again for your business, I appreciate it very much.

Best regards,
